Interim City Manager Wingard request discussion and possible action regarding recommendation from the Economic Development Commission to determine branding name for the City as "City of Festivals" or "Gateway to Black Butte Lake". PUBLIC HEARING -

General Plan Amendment #2009-01: Review, consideration and determination on the City of Orland 2008-2028 General Plan Update, Final Environmental Impact Report (FEIR), Statement of Overriding Considerations, Mitigation Monitoring and Reporting Program (MMRP) and proposed Land Use Map.

Interim City Planner Friend gave a brief overview of the General Plan Update for 2008-2028. The City has complied with all legal noticing requirements and is ready to move forward. Interim City Planner Friend responded to comments received since the last meeting. The Public Hearing opened for comments at 9:35 p.m. Bob Bishop, 224 Mellane Circle, asked why the City Engineer has not been asked his opinion regarding HE-2A Conditional Use Permits. Interim City Planner Friend stated that HE-2A Conditional Use Permits is a fundamental planning question about the regulation and use of a zoned district; this issue is not related to the City Engineer. Mr. Bishop asked what the future zoning of Blair 3 is as determined by the General Plan; is it high or low density. Interim City Planner Friend advised it would be determined as R-1 Low Density. Mr. Bishop asked what does the Housing Element indicate in regards to Blair 3. Interim City Planner Friend stated the Housing Element does not regulate density; that is the job of the Land Use Element. Interim City Planner Friend confirmed the plan adequately accommodates the RHNA number of 621. Trish Saint-Evens, 6825 County Road 15, stated in regards to the water well replacements, will this cause any impediments to growth or development in the future. Interim City Planner Friend advised the rate structure is updated to cover maintenance costs and the impact fee program is updated annually to accommodate new growth and improve the systems. Ms. Saint-Evens asked if the Regional Housing Needs Assessment (RHNA) number will ever change. Interim City Planner advised the RHNA number will not change between now and 2014; however when the Housing Element is updated in 2014, the City will be given a new number from the State. Jamie Lely, 6806 County Road 12, questioned whether sewer capacity can be reserved for future development and infill. Interim City Planner Friend believes there is adequate sewer capacity; however a policy can be implemented by Council if there was a concern. Interim City Planner Friend confirmed with Ms. Lely that the Stony Creek trail does not cross through her property. The Public Hearing closed at 9:54 p.m. Councilmember Paschall asked whether the number of entitlements the City has approved in the past is adequate. Interim City Planner Friend stated the sewer plant has more than enough capacity. Interim City Planner advised because the RHNA number has been lowered, it accommodates the planning goal adequately.

Councilmember Hoffman moved, seconded by Councilmember Paschall to adopt Resolution No. 2012-01 certifying the Final Environmental Impact Report (EIR) and making and adopting Environmental Findings as required by CEQA; adopting the Findings of Fact and Statement of Overriding Considerations, and adopting the Mitigation Monitoring and Report Program with the Finds as listed in the Resolution.
